

SANDMAN

CHANGE TRAIL, NOT BIKE

HOGGAR Ti

ULTRA LIMITED EDITION

GOOD NEWS!

THE FIRST BATCH OF SANDMAN BIKES IS IN PRODUCTION.

After two years of comprehensive testing on all sorts of trails and disciplines in over more than 20 countries, we are now preparing the commercial launch of **THE BEAST**.

Over the past two years, you have tested the SANDMAN and left us your email address. By doing so you earned the privilege of being one of the first 100 owners of a SANDMAN bike in Europe. Especially for the “early birds”, we will be releasing the first batch of the SANDMAN as a high-end numbered Limited Edition, with a numbered frame for the first 100 owners. The first batch we made is also our top model, because; we knew our early adopters wouldn't settle for anything less than a titanium frame.

MEET THE HOGGAR Ti

The special edition SANDMAN Hoggar is based on an elegant titanium frame with a brushed finish. The limited edition consists of a “boutique” spec list that leaves no doubt about this beast’s trail-blazing intentions: Hope M4 brakes, metalflex brake hoses and floating disc rotors. Crank Brothers Joplin dropper seatpost, with remote control on the handlebars, for quick reaction to changing trail conditions. The German Answer Flame “wide” forks with 90 mm suspension travel have been co-developed with SANDMAN; they are a perfect marriage of the 3.8 wide Larry tires on 47mm wide Trialtech SL rims. The power is transmitted through high-end The Hive e*thirteen cranks, with the special Polygon interface between crank arms and BB. The spec list concludes with beautiful and bombproof Hope parts, XO efficiency and XT sturdiness.

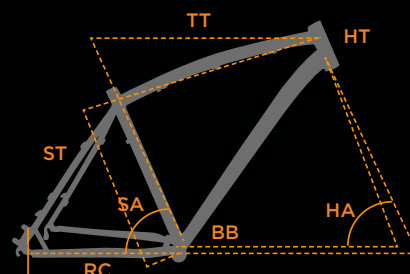

**An optional
29er wheel set
is available
for fast, rolling
terrain and/or
easy XC.**
